Fine Arts at Surry Community College

Autobody Classes for Hobbyists

Continuing Education Schedule pages 8 - 21
STARTING
FALL 2016
Yadkin County Course Offerings
Through Surry Community College

Earn a College Transfer Degree without leaving Yadkin County!

Also Starting Fall 2016:
Get a start on the Mechatronics degree in Yadkin County. Future program offerings will include Welding & Computer-Integrated Machining. Classes will be held at The Yadkin Center and The Yadkin Valley Agriculture & Education Center.

IMPORTANT DATES:
Fall 2016 schedule will be available on www.surry.edu on March 15, 2016.
Students will be able to register in April 2016.
Classes start Aug. 15, 2016.

Financial aid applications should be completed by June 1, 2016 for assistance to be in place by the start of the Fall 2016 semester. Call (336) 386-3264 or go to www.surry.edu for more information on registering for classes or help with financial aid.

Cover Image: Fine Arts student Geoffrey Walker of Elkin has a passion for hand building ceramic characters during classes at Surry Community College. Top Inset: Scott Lester is the Engineering Design Technology Instructor at SCC. Bottom Inset: Surry Community College is offering Collision Repair and Refinishing classes for people who would like to work on refinishing a vehicle, but do not wish to take Autobody courses for college credit.

The mission of Surry Community College is to promote personal growth and community development to a diverse population through excellence in teaching, learning, and service.

Creating Success is published three times a year by Surry Community College, 630 S. Main Street, Dobson, NC 27017.

70,640 copies of this public document were printed at $0.17 per copy.
Surry Community College fine art students enjoy a variety of classes including painting, drawing, two and three dimensional design, sculpture and ceramics. Art students can pursue an Associate in Fine Arts (AFA) Degree as part of the transfer program at Surry. The AFA degree allows students to go directly into the workforce as practicing artists or transfer to a four year institution to complete a Bachelor of Fine Arts Degree. The AFA curriculum provides graduates with a solid foundation for artistic growth and prepares students to meet the selective admission criteria of four year schools. Course work includes classes in the humanities, English, mathematics and social sciences along with a choice of concentration, depending upon individual student interests, in two or three dimensional fine arts classes.

Fine Arts student Geoffrey Walker of Elkin has a passion for hand building ceramic characters. Walker is developing a videogame called Code RXT that started as a graduation project at Elkin High School, and now he makes the characters come to life on screen and in clay. He has sculpted 80 ceramics characters and has a goal of 200. The characters are from an imaginary world where there are three factions – the good guys, the neutrals and the bad guys.

“I love the environment of the ceramics studio. It's a great place to be. It's relaxing, and it's stress-less. I like to get into the zone and focus on one thing,” Walker said. “If it doesn't go well, I just break it down and start over, or I take the mistake and work with it to make it better. It's also a collaborative environment where the instructor is always there to help you, and the students help each other.”

Walker has received scholarships from the Foothills Arts Council and the Surry Arts Council to continue his ceramics work at the college. He hopes to own a ceramics studio one day.
DeDe Brown is a Surry Early College senior who discovered a keen interest in drawing during Fine Art classes at Surry Community College.

Continued from page 2

DeDe Brown is a senior with the Surry Early College who is working on the completion of her high school degree along with an Associate in Arts. This Mount Airy resident hopes to transfer to either Appalachian State University or UNC-Asheville after graduation. During her studies at Surry Community College, she has discovered a love of the Fine Arts.

“I love to draw people, very abstract people,” Brown said. “I like using a lot of mixed media – pen, ink and water. Sometimes I like to incorporate physical things from nature such as flowers.”

Artists such as Banksy, Salvador Dali and M.C. Escher inspire Brown’s artwork, which she has tapped into through her college classes.

“The classes here are more creative and more freeing and more about your personal artistic process rather than learning everyone else’s process. It’s very individualized with smaller class sizes. Plus, the students in these classes are there because they want to be there, which creates a better learning environment,” she said.

Brown pushes herself in the classes and likes the collaborative atmosphere where the students help each other. She has been attending the Surry Early College since the ninth grade, and this is her senior year.

“I just love going to class here. It’s such a good school,” Brown said. “I would recommend that others take Fine Art classes at Surry. It’s such a great experience.”

For more information, contact Danajean Mabry, Lead Instructor for the Associate in Fine Arts program, at (336) 386-3284 or mabryd@surry.edu.
Students can get a certificate in Engineering Design that will lead to employment as drafters by only taking 18 credit hours of study at Surry Community College.

“There are definitely companies out there who need people skilled in Engineering Design, which is a new term for drafting,” said Scott Lester, who is an Engineering Design Technology Instructor at Surry Community College. “There is a shortage of good drafters. Drafters are the engineers’ and architects’ workhorses. People want to be an engineer or architect, but they don’t realize they have to know drafting to be one.”

Lester graduated from Surry Community College in 2008 with an Associate’s Degree in Applied Science in Mechanical Drafting Technology.

“I am very passionate about what I do. I was always the kid who loved playing with Legos, and I knew I wanted to do something in design at an early age,” Lester said. “I absolutely love drafting. At North Surry High School, I learned AutoCAD, which is a two-dimensional drafting program.”

After graduating from SCC, Lester worked at the North Carolina Granite Corporation for 4.5 years doing architectural drafting where he would take drawings from architectural firms and apply granite facades, veneers or enhancements to buildings.

Sometimes he would closely follow an architect’s instructions, and other times he would have the freedom to come up with his own design for the granite application. Then, he would create fabrication tickets for each piece of granite to be produced including the layout, calculating the angles and accounting for expansion joints.

When employed by the North Carolina Granite Corporation, he did work on the Eternal Flame Memorial at Fort Bragg and the Allentown Art Museum in Pennsylvania.

Lester has been a design drafter at Fairchild Industrial Products, known as Rotork Fairchild, since February of 2013.

“I am the next step up from a draftsman. I can design things from scratch now,” he said. “I create component drawings, assembly drawings and work instruction sheets, which are used in-house by plant assemblers as well as sent to vendors. I design tooling used to assemble the product. The engineers at our company design the product, but my work explains how the product is to be put together and fabricated.”

Rotork makes pneumatic devices for the oil and gas, medical, and tire industries. Thus, the work Lester does is behind the scenes, but important.

“I also get to dabble in marketing a little bit. I use KeyShot, which is a 3D rendering software, and apply photorealistic graphics to 3D CAD files to create images used for catalogs and flyers for distributors,” Lester said.

Drafting is rewarding and lucrative and feels like a hobby to Lester.

“The favorite part of my job is getting paid to draw stuff all day. I don’t have to do hard, manual labor. I get paid to play. Being able to see things that you have designed or drawn and hold it in your hand is really neat. The satisfying part of my job is seeing the products that I designed, and people admire every day. They just don’t realize the work that went into it,” he said.

Scott Lester is an Engineering Design Technology Instructor at Surry Community College. He also works full-time as a design drafter at Fairchild Industrial Products Inc. known as Rotork Fairchild.
Continued from page 4

Lester says that artists can make some of the best designers, but the creative side needs to be reined in with structure and organization. Students will benefit from taking advanced math and physics classes, he said.

"Students interested in Engineering Design have to be very self motivated and driven to learn new things. They have to be creative in design and disciplined in production standards," Lester said.

Surry Community College offers a certificate in Engineering Design, which requires seven classes. The curriculum prepares students to apply technical skills and advanced computer software and hardware to create working drawings, graphic representations and computer simulations for mechanical and industrial designs. Graduates should qualify for employment in mechanical areas such as manufacturing, fabrication, research and development, and service industries.

For more information, contact Engineering Technologies Chairperson Jason Randall at (336) 386-3435 or go to www.surry.edu. Information about the Engineering Design program can also be found at facebook.com/sccengineering.

Scott Lester instructs students at Surry Community College on how to use SOLIDWORKS a computer-aided design software. Students also learn technical drafting such as AutoCAD.

About the Program
A course of study that prepares the students to apply technical skills and advanced computer software and hardware to create working drawings, graphic representations and computer simulations for mechanical and industrial designs.

Jobs
Graduates of the SCC Engineering Design program have the opportunity to be employed as:

- Mechanical Drafter
- CAD Designer
- Project Designer
In The Spotlight

Autobody Classes Available for Hobbyists

Surry Community College is offering Collision Repair and Refinishing classes for people who would like to work on refinishing a car, but do not wish to take Autobody courses for college credit.

Car restoration hobbyists can take Autobody (or Collision Repair and Refinishing) through the Corporate and Continuing Education Division.

These classes prepare individuals to apply technical knowledge and skills to repair, reconstruct and finish automobile bodies, fenders and external features.

“Students are welcome to bring their own project to work on,” explains Lead Instructor Jeff Boles. “The instructor will walk the students through proper techniques as their skill level increases. The classes are mainly hands-on with light book study. The classes are for someone who wants to learn the techniques.”

**Schedule:**

**Painting & Refinishing II**
January 6 – May 11, MW, 8:30am – 12:30pm

**Non-Structural Damage II**
January 7 – May 12, TTH, 6:30pm – 10:30pm

**Non-Structural Damage II**
January 7 – May 12, TTH, 8:30am – 11:30am

All classes will be held at the Dobson campus in the B-Building. Advance registration and advance payment are required. Each class has a $183 fee. Call (336) 386-3398 for more information about the classes or to register.

Surry also offers a diploma and a certificate in Collision Repair and Refinishing for those who want a career in this field. Follow the Autobody program at facebook.com/surryautobody. Students who are pursuing a career in this field should contact Student Services at (336) 386-3264.

Cameron Bare of Hamptonville is sanding body filler on a 1988 Ford F-250 after replacing patch panel to repair rust damage. Surry Community College is offering Autobody classes for hobbyists who wish to learn how to perform Collision Repair and Refinishing work.

Find Your Future in Nursing

Surry LPN program exceeds both state and national averages for graduates taking the NCLEX-PN the first time. Surry students have a four-year pass rate of 100% compared to the three-year national pass rate of 84% and a three-year pass rate in North Carolina of 80%.

In the Associate Nursing Degree program including LPN-ADN, Surry graduates surpass the average pass rate on the NCLEX-RN in North Carolina and the nation. Surry graduates have a three-year pass rate of 90%, compared with a three-year pass rate of 85% in the nation and 81% in North Carolina.

**Programs offered:**
- Nurse Aide
- Licensed Practical Nursing
- LPN-ADN
- Associate Degree Nursing

For more information, contact Dr. Yvonne Johnson at (336) 386-3368 or Debbie Cave at (336) 386-3372.
Tax Dollars Set Aside for SCC Training Partnership

In The Spotlight

Surry Community College Trainer Ed Gann (center) provides training on forklift safety at Nester Hosiery in Mount Airy as a part of Surry Community College’s Customized Industry Training program.

The North Carolina Community College System offers a customized training program consisting of education, training and support services for new, expanding and existing business and industry in all of the state’s 100 counties.

Through Surry Community College, companies in Surry and Yadkin counties are assisted with various projects. SCC ranked third in 2014-2015 among the community colleges in the state for the highest number of projects in this program, formally known as the NCWorks Customized Training Program.

In 2008, the N.C. Community College System received legislative approval to not only provide assistance to companies that were creating jobs but to support those eligible companies that were investing in new machinery and equipment, as well as to support the productivity enhancement of the incumbent workforce. Money used to fund this program comes from tax dollars that are set aside for Surry Community College’s Customized Industry Training programs.

Frankie Vernon is the Human Resources Manager at Nester Hosiery, a state-of-the-art manufacturer in Mount Airy. Vernon has been working with Sam Brim, Business and Industry Services Director at Surry Community College, to provide training to Nester employees.

“Through Surry Community College, we have been able to train 20 people in Microsoft Office, Excel, and Word. Ten people have been certified in CPR, AED and First Aid. Our managers have been able to benefit from an extensive managers training class,” Vernon said.

The corporate-college partnership also allowed Nester Hosiery to receive project dollars that allowed for on-site technical training from Italy, which would have been cost prohibitive otherwise. Nester Hosiery also underwent a safety update for maintenance and housekeeping including blood borne pathogens, electrical safety, forklift safety, lockout/tagout and updated OSHA training through SCC.

“The trainers are excellent. They are not just about academics. They have been in industry and actually done these things,” Vernon said. “The medical instructors were also paramedics, so they were all highly trained in their areas. If Sam Brim had not been pushing us, our company would have never gotten all this training. He and his staff have been great to work with. I would highly recommend other companies to reach out to Surry Community College for assistance. It’s been very helpful for us.”

Nathan Lewis is the Human Resource Manager at the Phillips Van Heusen Distribution Center in Jonesville. PVH has a diversified portfolio of brands that are sold internationally including Calvin Klein, Tommy Hilfiger, Van Heusen, IZOD, ARROW, Speedo, Warner’s and Olga.

SCC provided new hire training, lock out/tag out training, OSHA re-certifications, and assisted with updating the company’s HAZCOM policy, as well as conducting an associate survey at PVH.

“Having the partnership with SCC, makes my life easier,” said Lewis. “I know where to go for these training requirements. I can call Surry when I need help, and they are going to have what I need or help me find it. It’s been great, and it’s cost effective. We have not had to pay anything.”

The college helped PVH with a large OSHA update in 2013. “The college helped us pull that off with over 600 associates,” Lewis said. “SCC was great to help us get to where we needed to be. They are great partners to work with, absolutely great.”

Willow Tex, a textile manufacturer and distributor based in Mount Airy, is another company that has benefited from Surry Community College’s Customized Industry Training programs. Debbie Hooker is the Human Resources Manager.

“Surry Community College has been extremely helpful with training and explaining what classes and resources are available,” Hooker said. “Our company conducted ISO 9001 internal auditor training through North Carolina State University at our facility with assistance from Surry Community College.”

Surry has provided Willow Tex with training on OSHA 10, lock out/tag out, confined space entry, first aid, CPR, hazardous waste, forklift training, electrical safety, and Auto CAD among others.

“Sam Brim, the trainers and others at the college have provided a significant service to our company and workforce,” Hooker said. “As an HR manager, they have made my job easier by being able to obtain training for our employees at little to no cost. Training is expensive for a small company, especially when you are just getting started. Surry Community College’s assistance has been very beneficial for our company.”

The goals of SCC’s Customized Industry Training Program are to develop long-term strategic partnerships with business/industry leaders; to assist small business startups and expansions; and to place Surry students into local jobs.

“We want to continue to build strong partnerships with business and industry throughout Surry and Yadkin counties. We want business and industry to reach out to Surry Community College as a first option for training and student resources,” Brim said.

SCC offers support with comprehensive training plans, contingent office/meeting space, record keeping for training, advisory programs, and business support programs.

For more information about SCC’s Customized Training Program, contact Sam Brim at (336) 386-3684 or brims@surry.edu.
Notary Public
Contact (336) 386-3580 or (336) 679-4600 to pre-register or for more information.

This two night, seven hour course prepares students to become a Notary Public in North Carolina. Topics include notary qualifications, guidelines, and processes for notarizing documents. After passing the course test, students are eligible to submit an application to the Secretary of State to become a notary.

*Note: In order to take this class, students MUST live/work in NC, be at least eighteen years old, possess a high school diploma or HSE/GED, be able to read/write English, have no felony convictions (some misdemeanors apply), and have a valid driver’s license or NC State ID.

Cost $71
Textbook $27.25 (subject to change)

Location: SCC Dobson, Room A-121
  • January 26 & 28, TTh 6pm-9:30pm
  • May 24 & 26, TTh 6pm-9:30pm

Location: Yadkin Center, Room 217
  • February 23 & 25, TTh 6pm-9:30pm
  • June 28 & 30, TTh 6pm-9:30pm

Location: Elkin Center, Room 107
  • March 22 & 24, TTh, 6pm-9:30pm

Location: Pilot Center, Room 110
  • April 19 & 21, TTh 6pm-9:30pm

Practical Spanish I: A Survival-Guide for English Speakers
Pre-registration and pre-payment required. You may register online or use the form in this brochure to mail, walk-in, or fax your registration and payment. Call (336) 386-3398 for more information.

The overall goal of Community Spanish is to prepare English-speaking people to speak and understand small amounts of general and basic Spanish found in most routine interchanges in daily life. Additionally, this class provides basic cultural information about Spanish-speaking groups in the hope of informing and educating English-speakers about unique aspects of Latino culture.

Cost: $71
(Call for Dates & Location)

Real Estate Broker
Real Estate Broker Continuing Education (CEU) Classes
Pre-registration and pre-payment required. You may register online or use the form in this brochure to mail, walk-in, or fax your registration and payment. Call (336) 386-3398 for more information.

North Carolina requires real estate brokers to obtain yearly continuing education units. SCC offers this class upon approval of the NC Real Estate Commission for CEUs toward license renewal. All classes require that students have the course textbook and/or workbook.

Cost: $71
Location: SCC Dobson, Room J-103
Broker CEU Class: Market Pulse
(Call for dates)

Taxidermy
Deer and Game Heads/Birds and Waterfowl
Pre-registration and pre-payment required. You may register online or use the form in this brochure to mail, walk-in, or fax your registration and payment. Call (336) 386-3618 for more information.

Instruction will be provided on skinning, fleshing, tanning and drying the skin as well as ordering manikins and other parts necessary to complete the mount. Students will also learn how to alter and rebuild a manikin. Laws and regulations will be discussed.

Cost: $183
Location: Pilot Center
  • February 6 – June 18
  Every Other Saturday, 8:30am – 3:30pm

Taxidermy
Advanced Techniques and Special Topics
Pre-registration and pre-payment required. You may register online or use the form in this brochure to mail, walk-in, or fax your registration and payment. Call (336) 386-3618 for more information.

Our advanced taxidermy class is open to advanced taxidermists, past students or those currently enrolled in one of our other taxidermy courses. Participants may work on any project of their choice and receive individualized instruction as needed.

Cost: $183
Location: Pilot Center
  • February 6 – June 18
  Every Other Saturday, 8:30am-3:30pm

Upholstery
Commercial and Automotive
Pre-registration and pre-payment required. Please use the form in this brochure to mail, walk-in, or fax your registration and payment. Call (336) 386-3618 for more information.

Bring your upholstery project and learn to tear down a piece of upholstered furniture or automotive seat; then, completely restore it by repairing or rebuilding the frames, replacing parts, and selecting and replacing fabric. This is an entirely hands-on class that requires lifting and the use of sewing machines and cutting tools.

Cost: $183
Location: Pilot Center
  • February 15 – June 8, MW, 9am-1pm
  • February 16 – June 2, TTh, 5:30pm-9:30pm
Career Readiness Certificate

Please call Susan Ratcliff at (336) 386-3309 for registration information and class days and times.

For more information: www.crcnc.org

The National Career Readiness Certificate, signed by North Carolina’s governor, provides a credential for employees confirming their workplace skills in applied mathematics, reading for information, and locating information. These three skills have been identified by employers as vital for success in the vast majority of today’s jobs.

WorkKeys is required to earn a National Career Readiness Certificate.

Career Readiness Skills (KeyTrain)

Career Ready 101 is our integrated approach to exploring careers and skill requirements, building workplace skills using KeyTrain, and creating life-literacy with such skills as financial awareness and job searching. This program leads users to certification with WorkKeys assessments and the North Carolina Career Readiness Certification. It’s a powerful way to build self-esteem, provide real credentials, and set you up for success. Use our KeyTrain courses to improve your math, reading, and locating information skills. Practice and learn the Career Readiness skills needed to succeed for jobs and careers. Work toward earning your Career Readiness Certificate. Determine what level of The Career Readiness Certificate you are eligible to earn - Bronze, Silver, Gold or Platinum Certificate in each of the three core areas.

Cost: $180
(Tuition may be waived for the unemployed and under-employed)

Location: All Locations
Open Enrollment, Hours vary by location.

COLLEGE AND CAREER READINESS PROGRAMS

You must be at least sixteen years old to enroll in one of our College and Career Readiness programs. If you are under eighteen years old, we require a Surry Community College student release form which is available online at www.surry.edu, from our Corporate and Continuing Education office on Main Campus in Dobson, or from one of our five learning centers:

Elkin Center in Elkin
(336) 386-3604

Jones Family Resource Center in Mount Airy
(336) 786-1071 or (336) 386-3688

Main Campus in Dobson
(336) 386-3596

Pilot Center in Pilot Mountain
(336) 386-3618

Yadkin Center in Yadkinville
(336) 679-4600 ext. 3594

Adult Basic Education (ABE)
Contact Jennifer Pardue at (336) 386-3674

Adult Basic Education is a program of instruction designed for adults who need to improve their reading, writing, speaking, problem solving or computation skills to function more effectively in society, on a job or in the family.

Classes are offered at our learning centers in Dobson, Elkin, Mount Airy, Pilot Mountain and Yadkinville.

We also offer ABE classes designed specifically for adults with developmental disabilities and traumatic brain injury. The focus of these classes is to improve the individual’s independence by acquiring necessary basic life skills from math and reading skills to job development. Students also gain appropriate communication and socialization skills as well as full access to a computer lab.

Classes are offered at LIFESPAN in Dobson and Creating Successful Learners program in Mount Airy. Books, materials, and instruction are provided free of charge.

High School Equivalency (HSE)
Contact Jennifer Pardue at (336) 386-3674

The GED® test is computer based only, but paper testing is available only as an accommodation. The test has four content areas:

1. Reasoning through Language Arts (150 minutes)
2. Mathematical Reasoning (115 minutes)
3. Science (90 minutes)
4. Social Studies (90 minutes)

The test is offered in English and Spanish. The test requires student knowledge of basic computer skills, which is part of our HSE curriculum. The cost to students is $20 per test for a total of $80 for the entire series. When you pay for one test, you get two retakes at no charge. After the third attempt to pass a test, you must wait sixty days before you can take the test again. Upon attaining a minimum standard score of 150 on each of the four tests and a total of 600, a high school equivalency diploma is awarded to the student by the State Board of the Community College System. Books, materials and instruction are provided free of charge.

ABE/HSE Orientation

There is a mandatory one day (four hour) orientation required for new ABE/HSE students and students returning after six months. Students must bring a picture identification such as a driver’s license/permit or government issued photo and a social security card to orientation. Any student age 16 or 17 must present a completed Surry Community College Student Release form. Please call one of these staff members to register for orientation:

How to Use a Computer for Seniors

This class is designed to be hands-on and user friendly for senior citizens. Topics taught in this class vary, and each session will include topics like: computer basics, how to copy and paste, using spreadsheets, and Internet skills. Students will be shown how to use the computer for things like their daily planner, address book, calendar, note pad, file, folders, papers and more. You will be shown how to use your computer to watch videos, listen to music, organize your photographs, send mail, etc. Handouts will be provided to each student.

Cost: $125
Location: Center for Public Safety Mount Airy, Room 114
- January 11 – March 7, MW, 9am–noon
- March 14 – May 9, MW 9am – noon
Location: Elkin Center, Room 110
- January 11 – March 7, MW, 1pm-4pm
- March 14 – May 9, MW 1pm-4pm
Location: Pilot Center, Room 114
- January 12 – March 3, TTh 9am-noon
- March 15 – May 5, TTh 9am-noon
Location: Yadkin Center, Room 218
- January 12 – March 3, TTh, 1pm-4pm
- March 15 – May 5, TTh 1pm-4pm

Introduction to Windows 10

This course covers basic computer skills, using Microsoft’s newest operating system, Windows 10. Learn what is new to Windows 10 as well as discovering the location of the everyday features used in past versions. Students will learn to browse the Internet with Microsoft’s new Edge application and find other useful Apps in the Window’s App Store. Other skills including file maintenance (moving, copying and renaming files) and using removable media will also be covered. Students must provide their own laptop with Windows 10 installed.

Cost: $71
Location: Pilot Center, Room 114
- February 23 – March 17, TTh 1pm – 4pm
Location: Elkin Center, Room 114
- April 12 – May 5, TTh 1pm – 4pm

Microsoft Windows, MS-Word & MS-Excel

This seven-week course will show the student how to use: MS-Windows, MS-Word, and MS-Excel programs. Students will be shown how to work with files, create new documents, how to save and rename documents, how to work with text to include editing, typing, inserting, highlighting, and deleting text. Students will learn how to write formulas and use built-in functions to have Excel automatically calculate totals, averages, monthly loan payments, and other common business calculations.

Cost: $127
Location: Yadkin Center, Room 218
- January 19 – March 10, TTh 6pm-9pm
Location: Center for Public Safety, Mount Airy, Room 114
- January 12 – March 3, TTh 6pm-9pm
Location: Elkin Center, Room 110
- January 19 – March 10, TTh 6pm – 9pm

Microsoft Excel 2010

Learn the basics of Microsoft’s spreadsheet program. The class will focus on everything from formatting and writing simple formulas to writing more complex formulas and functions. This class offers the skills that employers desire for the workplace as well as skills beneficial to the home user. This class may lead to Microsoft Office Specialist Certification.

Cost: $71
Location: SCC Dobson, Room V-217
- Dates TBA, TTh 6pm-9pm

iPhone/iPad Fundamentals

This course provides users of Apple’s iPhone and iPad basic knowledge of both devices. Students will not only learn the basics such as setting up email accounts, messaging, navigation and using controls, but will also be introduced to the newest iOS operating system and learn the basics of working with iCloud. Security, iTunes, popular apps from the Apple App store and photos will be emphasized during this course. The class is appropriate for users of the iPhone or iPad. iPads and/or iPhones must be provided by the student.

Cost: $71
Location: Elkin Center, Room 110
- January 19 – February 11, TTh 6pm-9pm
Location: Pilot Center, Room 114
- March 22 – April 14, TTh 6-9pm

Technology Awareness

This course provides employability skills training for unemployed and underemployed adults. The curriculum framework and the content of the instructional materials will focus on the following topics: developing a moderate comfort level of basic computer-use skills, using technology in developing and implementing job search strategies, researching career and occupational information, compiling and developing employment related documents (resume, cover letters, applications and electronic employment portfolios), accessing governmental and educational resources, assessing technology literacy, understanding the impact of social networking on employment, and emphasizing the role of technology in the workplace. This course will also include an introduction to additional forms of technology including the use of tablets and smartphones for the workplace.

Cost: $127
(Tuition may be waived for the unemployed and under-employed.)
Location: Center for Public Safety Mount Airy, Room 114
- January 11 – March 7, MW, 1pm-4pm
- March 14 – May 9, MW 1pm – 4pm

- January 11 – March 7, MW 9am-noon
- March 14 – May 9, MW 9am-noon
Location: Pilot Center, Room 114
- January 12 – March 3, MW, 1pm-4pm
- March 15 – May 5, MW 1pm-4pm
Location: Yadkin Center, Room 218
- January 12 – March 3, TTh, 1pm-4pm
- March 15 – May 5, TTh 1pm-4pm

NEW! Introduction to QuickBooks 2015

This course explores the user-friendly bookkeeping software, QuickBooks 2015. Class topics include setting up your company on QuickBooks and creating your chart of accounts. Students will also learn to handle multiple forms of payment. Other topics include handling accounts payable and creating reports.

Cost: $71
Location: Pilot Center, Room 114
- January 12 – March 3, TTh 6pm-9pm

Smartphones for the Android User

This course will instruct users of Android based smartphones and tablets with skills related to the Android operating system. Students will learn skills related to basic settings, messaging, email, apps and working with the Google play store.

Cost: $71
Location: Elkin Center, Room 110
- April 5 – April 28, TTh 6pm – 9pm
Grape Growing & Wine Making

Pre-registration and pre-payment is required prior to the class day to ensure that handouts and materials are available for each participant.

Cost: $30 for each of the following topics
Location: SCC Dobson, Shelton-Badgett North Carolina Center for Viticulture & Enology, Room 113

For more information: (336) 386-3618

Cold Damage Assessment and Management
Cold damage results in damage fruiting positions or missing vines on a yearly basis in NC vineyards. Knowing how to properly assess cold damage will help identify problems in your vineyard and encourage proper management strategies. This workshop will cover strategies to avoid cold damage as well as pruning techniques to compensate for bud damage from winter freeze events.

January 15, F, 12:30pm-3:30pm

Backyard Grape Production
This introductory level course will focus on backyard and beginning small-scale commercial grape production. The class will cover topics such as site selection, site preparation, choosing varieties, and what you will need to do to keep your vines healthy.

January 27, W, 5:00pm-8:00pm

Vineyard Nutrition
How to break down soil and petiole sample reports into an effective fertilization program
The physiological health status of your vineyard strongly depends on the nutrient availability to the plant. This workshop will discuss optimal vineyard nutrition, provide nutrient level thresholds, and recommend fertilization practices for growing high quality winegrapes.

February 19, F, 12:30pm-3:30pm

Sprayer Calibration
Air blasts and boom sprayer calibration methods
Calibration is simply the accurate determination of the spray volume delivered by the sprayer and verification that the spray pattern is correct. A sprayer that is not properly calibrated may result in wasteful and harmful over-application of chemicals, or reduced effectiveness due to under-application.

March 18, F, 12:30pm-3:30pm

Vineyard Establishment and Planting
Learn how to successfully plant and care for young grape vines. Surry Community College will be planting 2 new acres this year, and we want you to be a part of it! We will spend the day in the field discussing planting methods and techniques, and working in the newly established vineyard. Gloves and a bottle of water are recommended.

April 15, F, 12:30pm-3:30pm

Canopy Management
Shoot Thinning
Learn about the importance of shoot thinning in the vineyard. We will discuss timing and techniques related to shoot thinning, and practice in the Surry Community College campus vineyard. Gloves, hat, and a bottle of water are recommended.

May 6, F, 12:30pm-3:30pm

Give the Gift of Education to someone for Christmas

You can prepay for classes at Surry Community College to give as gifts in the following subjects:

Barn Quilts, Beginner Old Time Banjo, Beginner Fiddle, Beginner Mandolin, Beginner Sewing, Cake Decorating, Disc Golf, Drawing, Line Dance, Painting, Pet Grooming, Photography, Photoshop, Quilting, Shag Dance, T-shirt Quilting, Violin-Making and Yoga

Purchases may be made until Dec. 18.
Call (336) 386-3398 to learn more.
Human Resources Development

All HRD classes offered at no cost to unemployed, underemployed workers. No pre-registration required.

Pre-registration and pre-payment required. You may register on-line or use the form in this brochure to mail, walk-in, or fax your registration and payment. Call (336) 386-3398 for more information.

Digital Photography

DSLR / Mastering the Manual
This mini course will help you improve on your skills and become more proficient with your DSLR (Digital Single-Lens Reflex) camera. Please be aware this class is taught more from a DSLR camera perspective. We ask that you be familiar with your camera and that you bring your camera’s operation manual to class.

Cost: $49
Location: Pilot Center
  • January 5 – January 26, T, 6pm-8pm

Location: Yadkin Center
  • January 12 – February 2, T, 6pm-8pm

Location: Elkin Center
  • January 14 – February 4, Th, 6pm-8pm

*Additional Digital Photography classes may be available at the Yadkin and Elkin Centers.

Intro to Photographic Photoshop I
During this class we will learn the basic core techniques and skills for a photographer using Adobe Photoshop CS6 Creative Suite software – setting up your workspace, how to load tools, actions, presets and brushes for maximum productivity; learn to use layers, image enhancement and retouching, color cast removal.

Note: Students must provide their own laptop computer with Adobe Photoshop CS6 installed or have a subscription for Adobe Photoshop Creative Cloud

Cost: $49
Location: Pilot Center
  • January 14 – February 4, Th, 6pm-8pm

Natural Lighting and Posing the Human Body
During this class we will introduce you to the basic core techniques and skills for lighting and posing of the human body. We will have model(s) and will explore the use of natural lighting indoors and outdoors as weather permits.
Pre-requisite: DSLR Cameras Class or working knowledge of DSLR manual settings

Cost: $49
Location: Pilot Center
  • February 9 – March 1, T, 6pm-8pm

Sports and Vacation Photography
During this class we will introduce you to the basic core techniques and skills for photographing sports; indoors and outdoors. We will attend a couple of local sporting events and practice these techniques. We will also do a photo safari of the many interesting places in Mt. Airy as a vacation location – all as weather permits.
Pre-requisite: DSLR Cameras Class or working knowledge of DSLR manual settings

Cost: $49
Location: Pilot Center
  • March 15 – April 12, T, 6pm-8pm

Wedding/Outdoor Bridal Photography
During this class we will introduce you to the basic core techniques and skills for wedding photography. We will visit local sites of a church, a venue for weddings and outdoor locations. We will have model(s) to work with at these locations – all as weather permits.
Pre-requisite: DSLR Cameras Class or working knowledge of DSLR manual settings

Cost: $49
Location: Pilot Center
  • April 19 – May 17, T, 6pm-8pm

Quilting
Beginning quilters and experienced quilters may choose any quilt pattern to complete. One-on-one instruction is given as needed.

Cost: $79
Location: Elkin Center, Room 105
  • January 19 – March 8, T, 2pm-5pm

Location: Elkin Center, Room 105
  • January 19 – March 8, T, 6pm-9pm

Shag Dance
Learn the quintessential summer dance that began in the Carolinas. With several venues in our area for outdoor concerts and shagging, you’ll be able to join the fun. Partners are encouraged but not necessary. Instructor: Bruce Leonard

Cost: $49
Location: SCC Dobson, Room E-144
  • February 25 – March 17, Th, 6pm-8pm

T-Shirt Quilt
Create a memory quilt with your favorite T-shirts. You will complete four shirts in class, but you can add more T-shirts after class to make your quilt larger. You will learn to stabilize the T-shirt material, add sashing, and add batting and backing. You will also learn how to bind to finish the edges of your quilt.

Cost: $45 / Price includes stabilizer material for four shirts. Other supplies are an additional cost to the student. Please ask for a supply list.

Cost: $183 (New students are required to pay $116 supply fee)
Location: Center for Public Safety, Mount Airy
  • January 6 – May 25, W, 9am-3pm
  • January 6 – May 25, W, 4pm-10pm

Yoga
Tired muscles? Low energy? Yoga is a way to relax, stretch, and rejuvenate! Bring your yoga mat and spend an hour on yourself!

Cost: $55
Location: SCC Dobson, Room J-115
  January 4 – May 9, M, 5:30pm-6:30pm
  January 4 – May 9, M, 6:45pm-7:45pm
This course follows the guidelines established by the NC Office of EMS. The curriculum for the EMT-B educational program shall be the National EMS Education Standards including the 1994 United States Department of Transportation (US DOT) National Highway Traffic Safety Administration (NHTSA) EMT-Basic Course: National Standard Curriculum along with the Supplemental Airway Modules for EMT-Basic: NSC.

**Total hours:** 190 - 208

**Student prerequisites:**
- High school diploma or general education development (HSE/GED)
- Successful completion of the T.A.B.E. assessment exam for basic reading comprehension skills. (This testing will be assessed during the orientation period of the first class meeting)

---

Anatomy and Physiology for the EMS Provider – EMS 3000

This course is designed specifically for the EMS provider and fulfills the anatomy and physiology pre-requisite for acceptance into the certificate paramedic program. The course provides a basic study of the structure and function of the human body. Topics include a study of body systems, as well as an introduction to homeostasis, cells, tissues, nutrition, acid-base balance, and electrolytes. Upon completion, students should be able to demonstrate a basic understanding of the fundamental principles of anatomy and physiology.

**Cost:** $180 (Tuition waived for members of approved NC Lifesaving Organizations)

**Location:** Center for Public Safety, Mount Airy, Room 122
January 11 – March 2, MW, 10am – 5pm

---

Emergency Medical Technician – Basic (EMT-B)

The Emergency Medical Technician-Basic course establishes the basic knowledge needed to provide, under medical authority, pre-hospital emergency care and to pass the NC State and/or National Registry certification exam. Students will acquire basic life support knowledge through a combination of classroom instruction, practical laboratory exercises and clinical experience in hospitals. Students will acquire a thorough understanding of criminal, civil and vehicle laws pertaining to the EMT’s services; develop understanding and knowledge of human anatomy and physiology; deal calmly and efficiently with childbirth, injuries, poisonings and other medical emergencies such as heart disorders, strokes and diabetes; and in general be able to provide basic life support for seriously/critically ill patients.

---

Emergency Medical Technician – Paramedic Initial (EMT-P) EMS 3031

This course is designed to develop knowledge and skills for the Advanced Emergency care of ill or injured persons. This course follows the National Department of Transportation Guidelines and is approved by the North Carolina Office of Emergency Medical Services. Lecture, demonstrations, skills evaluation, and both Hospital and Field Internships are the principal methods of instruction. Specific training areas include administration of I.V. fluids, advanced airway management, cardiac monitoring including Defibrillation, Cardioversion, Cardiac Pacing, and the administration of prehospital advanced life support medications.

• May 2 & 4, MW, 6pm-10pm

Defensive Driving
Pre-registration and pre-payment are required 48 hours before the class date. Call (336) 386-3473.

Alive at 25
Alive at 25 is a four-hour classroom training program for drivers ages 16 to 24. Classroom discussion includes driver behaviors and attitudes, peer pressure and distractions, techniques to maintain control while driving and state and local driving laws. The Alive at 25 Defensive Driving Course is a program of the National Safety Council and administered by the Safety and Health Council of North Carolina. Please bring a copy of your ticket when you come in to register.

Cost: $71
Location: Yadkin Center, Room 201
• January 6, March 2, May 4 Wednesday, 6pm-10pm
Location: SCC Dobson, Room J-114
• January 13, March 9, May 11 Wednesday, 6pm-10pm
• February 13, April 16 Saturday, 8am-noon

Defensive Driving Course (DDC)- Attitudinal Dynamics of Driving (ADD) 8 hour
DDC – ADD is used extensively for court referrals as a diversion program for drivers with excessive violations and to retrain drivers with poor driving records. This class is a highly participatory class that assesses the individual’s behavior and then involves the students in developing a plan to improve their driving behavior. This class helps the individuals to understand their driving choices and how to improve them. The program helps create a new mind set while improving a person’s attitude so that his or her driving behavior can change. This class is a one-day, eight-hour class. You will need to bring a copy of your traffic citation with you when you pre-register. The DDC-ADD Course is a program of the National Safety Council and administered by the Safety and Health Council of North Carolina in cooperation with Surry Community College. A certified DDC-ADD instructor will conduct the program. Please bring a copy of your ticket when you come in to register.

Cost: $100
Location: SCC Dobson, Room J-114
• January 23, Sat, 8am-5pm
• March 26, Sat, 8am-5pm

NC Motorcycle Safety Program’s Basic Rider Course
Pre-registration and pre-payment required. You may register on-line or use the form in this brochure to mail, walk-in, or fax your registration and payment. Call (336) 386-3398 for more information.

Basic Rider Course
The basic course teaches the skills necessary to operate a motorcycle in traffic. This course consists of both classroom and driving range activities. Motorcycles are provided for the BRC course. Each site has a limited supply of helmets in various sizes. If possible, bring your own helmet to the riding portion of the course.

The course consists of 22 hours of training.

NOTE: The Friday evening classroom session is conducted in J-107. The remainder of the course is conducted at the Emergency Services Training Center behind the baseball field off Corner Blvd. in Dobson, NC.

Cost: $167 (price subject to change)
Course schedule to be posted on surry.edu

Key for Credentials Offered in A-Z Table

AA = Associate in Arts
AFA = Associate in Fine Arts
AGE = Associate in General Education
AS = Associate in Science
AAS = Associate in Applied Science
D = Diploma
C = Certificate

ADVANCED MANUFACTURING

Computer-Integrated Machining
Credentials Offered: AAS, D, C
Employment as machining technicians in high-tech manufacturing industries, specialty machine shops, fabrication industries, and high-tech or emerging industries such as aerospace, aviation, medical, and renewable energy.
Salary: $39,570

Electronics Engineering Technology
Credentials Offered: AAS, C
Employment as an electronics engineering technician, field service technician, maintenance technician, electronic tester, or production control technician to design, build, install, test, troubleshoot, repair, or modify electronic components and systems.
Salary: $58,540

Engineering Design Technology
Credentials Offered: C
Produce drawings of mechanical parts, components of mechanical systems, and mechanisms. Employment in mechanical areas such as manufacturing, fabrication, research and development, and service industries.
Salary: not available

Mechatronics Engineering Technology
Credentials Offered: AAS, D, C
Prepares the students to use basic engineering principles and technical skills in developing and testing automated, servomechanical, robotic, and other electromechanical systems used in advanced manufacturing. Graduates should be qualified for employment in industrial maintenance and manufacturing including assembly, testing, startup, troubleshooting, repair, process improvement, and control systems, and should qualify to sit for Packaging Machinery Manufacturers Institute (PMMI) mechatronics or similar industry examinations.
Salary: $47,910

Welding
Credentials Offered: D, C
Employment as an entry-level technician in welding and metalworking industries and in construction, manufacturing, fabrication, sales, and quality control.
Salary: $36,720

AGRICULTURAL SCIENCE

Horticulture Technology
Credentials Offered: C
Work in a garden center or nursery, or as an entrepreneur caring for the growing and marketing of fruits, vegetables, flowers, and ornamental plants. Horticulture also incorporates the principles of art and design as in architectural landscaping.
Salary: not available

Viticulture and Enology
Credentials Offered: AAS, D, C
Work in various areas in the grape growing and wine making industry such as vineyards, wineries, and related sales and services.
Salary: $34,790

ARMS & DESIGN

Advertising & Graphic Design
Credentials Offered: AAS, C
Employment with graphic design studios, advertising agencies, printing companies, department stores, a variety of manufacturing industries, newspapers, and businesses with in-house graphics operations.
Salary: $44,830

Fine Arts
Credentials Offered: AFA Transfer Degree
This degree allows students to take the first two years of general education credits toward a Bachelor of Fine Arts Degree. For this transfer program, careers could include any in the fine arts industry, depending on the focused area of study the student pursues at a four-year institution.
Salary: not available

BUSINESS & COMPUTER TECHNOLOGIES

Accounting
Credentials Offered: AAS, C
Designed to provide students with the knowledge and the skills necessary for employment and growth in the accounting profession. Using the “language of business,” accountants assemble and analyze, process, and communicate essential information about financial operations.
Salary: $35,730

Business Administration
Credentials Offered: AAS, C
Fundamental business functions and processes in business organizations in the global economy, with employment opportunities in government agencies, financial institutions, and small to large business and industry.
Salary: $37,200

Computer Information Technology
Credentials Offered: AAS, C
Prepares students for entry-level jobs in the information technology field with opportunities for on-going training and advancement.
Salary: $46,620

Digital Media Technology
Credentials Offered: AAS
Prepares students for entry-level jobs in the digital design and multimedia industry. Students learn about multimedia, computer programming, information architecture, and client/server technologies using both Internet and non-network based media.
Salary: $63,160

How to Apply:

1. Go to surry.edu to complete the admissions application.
2. Submit Official Transcripts.

Priority Dates:
Spring Semester: October 1
Summer Semester: March 1
Fall Semester: June 1

Check your SCC accounts on My Knight Life and the SCC Student Email.

Admissions Representatives:
If your last name begins with A – M:
Sarah Tilley (336) 386-3595

If your last name begins with N – Z:
Kevin Edwards (336) 386-3430

Financial Aid Representatives:
If your last name begins with A – I:
Ashley Tomlin (336) 386-3465

If your last name begins with J – Z:
Kendra Simmons (336) 386-3465

For more detailed application instructions, go to www.surry.edu or call (336) 386-3264.
Surry Community College, Dobson, NC (A-Building)  
Friday, 7:30am to 3:00pm  
Monday - Thursday, 7:30am to 6:00pm

Walk-In Registration for NEW Students:  
Monday - Thursday, 7:30am to 3:00pm  
Surry Community College, Dobson, NC (A-Building)

Please contact your assigned faculty advisor to begin the registration process.

Salary:  not available

Office Administration  
Credentials Offered:  AAS, D, C  
Administrative support geared to the demands of a dynamic, computerized workplace. Employment opportunities in business, government, and industry, range from entry-level to middle management.

Salary:  $32,840

Paralegal Technology  
Credentials Offered:  AAS, C
