Cover Image: Students at Surry Community College can complete the Registered Nurse program and then easily transfer to any of the 11 colleges in the University of North Carolina System that offer Bachelor of Science in Nursing programs. At Surry, students can complete studies leading to jobs as Nurse Aides, Licensed Practical Nurses and Registered Nurses. Top Inset: The demand for Medical Assistants is on the rise, and Surry Community College offers a two-year degree in this field. Bottom Inset: Jobs as Physical Therapist Assistants are rewarding and lucrative for Surry Community College graduates.
New Articulation Agreement Streamlines RN to BSN

Students at Surry Community College can complete the RN program and then easily transfer to any of the 11 colleges in the UNC System that offer Bachelor of Science in Nursing (BSN) programs due to a supplemental transfer agreement that goes into effect fall 2015.

“Students can earn their RN, and then work as a nurse while finishing their BSN,” said Dr. Yvonne Johnson, Associate Dean of Health Sciences at Surry Community College.

The State Board of Community Colleges and the UNC Board of Governors signed a uniform articulation agreement in February specifically for nursing, which provides seamless education pathways for students wishing to pursue advanced nursing degrees.

In the process, the agreement helps address the needs of both employees and employers by building a pipeline of skilled, talented citizens for promising careers. A report published in 2010 by the Robert Wood Johnson Foundation and Institute of Medicine recommended increasing the proportion of nurses with a baccalaureate degree to 80 percent by 2020 to meet the evolving demands of the health care industry.

The articulation agreement creates uniform requirements for students moving between North Carolina’s two public higher education systems and will help students shorten the time to degree completion and eliminate the need for multiple agreements between institutions. Prior to the agreement, students could apply to multiple RN-BSN programs, and each school might have different requirements that effectively excluded students from applying or required students to take additional or duplicative courses.

High school students can get a head start on a career as Nurse Aides or take care of prerequisites to enter the Nursing program at Surry Community College. Juniors and seniors can complete the Nurse Aide program – tuition free – while still in high school through the dual enrollment program called Career and College Promise. “Nurse Aides are the eyes and ears of nursing. They are with the patients more than anyone,” said Debbie Cave, RN, Program Director for Nurse Aide (CNA) and Related Programs at SCC. “Students who complete Surry’s Nurse Aide program have a huge potential for employment because of an increasing need for qualified employees. Nurse Aides work in a variety of healthcare settings such as long-term care, assisted living, home health, hospice, hospitals, and private duty,” Cave said.

The Bureau of Labor Statistics indicate that the number of Nurse Aides is expected to grow by 20 percent from 2010 to 2020, faster than the average for all occupations. Due to the growing elderly population, many Nurse Aides will be needed in long-term care facilities, such as nursing homes.

The Nurse Aide certification is required to enter the Associate Degree Nursing (ADN) or Licensed Practical Nursing (LPN) program. Students must also be listed on the NC Health Care Personnel Registry website as Nurse Aides who have passed the statewide exam.

The LPN diploma at Surry Community College takes one-year to complete. Graduates are eligible to apply to take the National Council Licensure Examination (NCLEX-PN), which is required for practice as an LPN.

Nursing Salary Breakdown*
Nurse Aides: $11.97 per hour or $24,890 per year
Practical Nurses: $20.15 per hour or $41,920 per year
Registered Nurses $31.84 per hour or $66,220 per year

*Salaries may vary for reasons including, but not limited to, years of experience, place of employment and specific occupations within each industry. Figures taken from Onet.com.
The Surry LPN program surpasses both state and national averages for graduates who are successful on their licensure exam the first time taken. Students of Surry’s Practical Nursing program have a three-year average pass rate on NCLEX-PN of 100 percent. This can be compared with a three-year national pass rate of 84 percent and a three-year pass rate for North Carolina of 80 percent.

Students who are already Licensed Practical Nurses can do the evening option LPN-ADN program to earn their associate’s degree. Graduates of the ADN or LPN-ADN are eligible to apply to take the National Council Licensure Examination (NCLEX-RN).

The Associate Degree program including LPN-ADN at Surry Community College surpasses the average pass rates on the NCLEX-RN in North Carolina and the nation. Surry graduates have a three-year average pass rate of 90 percent, compared with a three-year pass rate of 85 percent in the nation and 81 percent in North Carolina. “With the Affordable Health Care Act implementation and recent data figures showing that this region is going to have a shortage of physicians, nurses will be seen taking on a larger role in health care, and this will especially be true for advanced practice nurses,” Johnson said.

Employment opportunities for nurses are vast within the global health care system and may include positions within acute, chronic, extended, industrial, and community health care facilities.

“There’s just a wide range of areas where nurses can practice,” Johnson said. “Part of the beauty of nursing is there are so many different areas of practice that nurses can challenge themselves throughout their careers by transitioning to direct patient care, care coordination, administration or research. The field is wide open. Nursing education is also a talent area that is needed in the region. There is much diversity in the types and areas of nursing. Each area offers differing work schedules and some even afford flexible scheduling.”

The admission process for nursing is based on a competitive point system that can be viewed on www.surry.edu. The TEAS test is required along with a minimum GPA of 2.5 for college classes or 3.0 for high school classes. “There is no longer a waiting list – each student has an equal chance of being admitted each fall,” Johnson said.

The Nursing programs (LPN, LPN-ADN and ADN) at Surry Community College have received full approval from the NC Board of Nursing, which means that SCC is in good academic standing offering a rigorous program where students are being educated appropriately to meet requirements for the national licensure exam, Johnson explained.

For more information about any of the Nursing programs at SCC, contact Dr. Yvonne Johnson at (336) 386-3368 or johnsony@surry.edu.

---

Students Kevin Wells, Kim Boyles and Lee Ann Muller are collaborating on the physical assessment findings of the patient and discussing a possible patient diagnosis.

Student Jessica Atkinson is doing a physical assessment on the patient, while student Stephanie Morgan is assessing the vital signs on the monitor.

Student David Kiger is demonstrating professional interdisciplinary communication by calling to inform the doctor of abnormal physical assessment findings and abnormal lab results. He is also asking the doctor for any further patient orders. Also pictured are students Amber Bingman and Colleen Welborn.

Medical Assisting Profession is Booming

The demand for medical assistants is expected to grow 29 percent between 2012-2022, according to the U.S. Bureau of Labor Statistics.

“Medical assistants are trained to do basic things such as checking in the patient, obtaining patient history, performing certain diagnostic tests, giving injections and drawing blood,” said Carol Roberts, Director of the Medical Assisting program at Surry Community College. “Medical assistants can work on both the clinical and office side. They can operate all aspects of the office. The medical assistant is perfectly suited for a physician’s office.”

Kala Haynes, a May 2014 graduate of Surry Community College, knows firsthand the growing need for medical assistants. She participated in the college graduation ceremony last year on May 15, knowing that her first day on the job as a medical assistant at Harmony Medical Care, Harmony, N.C., would be May 20. She received her certification in June after taking the national exam.

“I use more clinical skills with my job,” Haynes said. “That’s more of my thing. I like working with the patients and conducting different types of tests. I also do medical coding, insurance, and do outgoing patient appointment scheduling along with referrals.”

On the job, Haynes has been trained to do X-rays. “I do the same thing as an X-ray tech would do. I take X-rays and send them to the radiologist. I also do blood draws, monitor Coumadin patients, and assist with CDL physicals. I stay busy that’s for sure. I love it. I am really happy with my career choice. No two days are ever the same.”

Haynes was fresh out of high school at 19 when she was accepted into the Medical Assisting program at Surry.

“My original plan was nursing. Then, I quickly learned that I wanted administrative skills as well as clinical. You can go further in administration than clinical. I wanted to be able to offer both sides of the table in order to be more valuable in the job market.”

Haynes enjoyed her time at Surry Community College. “It was a huge learning curve for me. I had a little bit of clinical experience. I had never drawn blood or conducted an EKG or pulmonary function test (lung capacity test). It taught me the skills needed, and it was a great learning experience for me. It was also different every day in the classroom. The teachers were great and helped me outside of the classroom as well.”

Students can earn an associate in applied science degree in Medical Assisting at Surry Community College. The program takes two years and requires a clinical internship. Program graduates take the American Association of Medical Assistants Certification Exam.

“It’s a great opportunity for students,” Roberts said. “The jobs are there.”

Medical assistants may become office managers after obtaining some experience. More medical employees will need certification due to the increased use of the electronic health records. The Health Care Reform Act requires that medical assistants entering information into the electronic health record be certified. The path to certification as a medical assistant is obtaining an associate’s degree in medical assisting, and then sitting for the national certification examination.

Surry Community College has developed a new admission process for Medical Assistants with stringent guidelines based on a point count worksheet. Thirty slots will be available each year. The fall 2015 admission deadline is June 30.

“Students who want to become medical assistants need to be self-motivated team players and able to handle stress because they will be dealing with sick patients every day. They also need to be professional, compassionate, positive, friendly and outgoing. They need to really care about what they are doing. They have to have a servant’s heart,” Roberts said.

Medical Assisting students have ranged in age from 19 to 60 years old.

“This is a good profession for a stay-at-home mom who wants to re-enter the workplace or for someone who has lost their job and wants to be retrained,” said Roberts, who did just that. She had worked at the ticket counter for an airline when her job was downsized. She went back to school and reinvented herself professionally as a medical assistant and then became an educator in the field.

Medical assistants work in physician offices, health maintenance organizations, health departments and hospitals. They earn $14.24 per hour or $29,610 on average annually.

For more information on Medical Assisting, contact Carol Roberts at (336) 386-3390 or roberts@surry.edu. Program and admission information is listed on www.surry.edu.
Students who want to work in the medical field, but do not want to administer medical care can earn a degree in Medical Office Administration at Surry Community College, which focuses on administrative healthcare work.

“It takes a lot to run a medical office – checking patients in and out, setting appointments, and doing the billing and insurance claim work,” said Mitzi Poore, lead instructor for the Medical Office Administration and Office Administration programs at SCC. “Medical Office Administration gives students the technology-oriented skills needed to run a medical office.”

Terri Hayes of East Bend graduated in May 2012 with a degree in Medical Office Administration from Surry Community College. She is currently working as a Patient Service Coordinator III at Novant Health Forsyth Pediatrics, Winston-Salem. Before obtaining full-time employment, she worked PRN (Pro Re Nata) or as needed for six months when she was trained to work in four different medical offices.

“I love my job here,” Hayes said. “The people I work with are awesome, and I enjoy what I do. I am not doing the same thing every day. I work the front desk and check patients in and out. I answer the phone and schedule wellness visits and handle referrals.”

Hayes was 33 when she decided to attend Surry. She had been a waitress for seven years and then worked as an administrative assistant for two years until she was laid off. She decided the medical field would be an area that would provide job security.

“It was hard losing my job because I had a family, and I didn’t know what I was going to do. I looked for several jobs,” said the mother of two. “My friends encouraged me to go back to school. I liked the idea of the medical field, but I didn’t want to take blood samples. So medical administration suited me.”

Her children and family members were at the graduation to see her walk across the stage with academic honors. “I really enjoyed the program. I didn’t think I would enjoy college because I didn’t enjoy high school,” Hayes said. “However, I met my best friend in the whole wide world in college. The classes were good, and they taught me a lot. There were days when it was a little rough having children to take care of along with homework and housework.”

Hayes took advantage of taking classes online when she needed to be with her kids who were then 10 and 15 years old.

“The teachers were really good about answering questions with the online classes as well as the seated classes. I even had an English teacher who helped me outside of class with papers for other classes,” Hayes said. “Going back to school is well worth it, and the teachers are there to help you no matter what. They have your best interest in mind. If I can do it with two kids and a household to run, I think anybody can do it especially with me being over 30 and returning to school.”

High school students can earn a certificate in Medical Office Administration by taking six classes tuition-free through Career and College Promise. These students then have a jumpstart on obtaining their diploma or degree in Medical Office Administration.

No board certification is required in this field, so after graduation students can hit the ground running. Students may also want to consider a double major in Office Administration since the programs are closely aligned. They can take several more classes and easily have another two-year degree to add to their resumes.

Medical Office Administration focuses on medical terminology, medical transcription, medical coding, insurance and electronic medical records whereas the Office Administration program includes classes on the management principles, personal finance and introduction to business. A work-based learning internship is required as part of the programs, which gives students hands-on experience while earning college credit.

High school students can earn a certificate in Medical Office Administration by taking six classes tuition-free through Career and College Promise. These students then have a jumpstart on obtaining their diploma or degree in Medical Office Administration.

Medical Office Administration focuses on medical terminology, medical transcription, medical coding, insurance and electronic medical records whereas the Office Administration program includes classes on the management principles, personal finance and introduction to business. A work-based learning internship is required as part of the programs, which gives students hands-on experience while earning college credit.

Medical Office Administrators earn an average salary of $15.33 per hour or $31,890 per year based on the level of experience, according to Onet.com.

For more information on Medical Office Administration or Office Administration, contact Mitzi D. Poore at (336) 386-3293 or poorem@surry.edu.
Physical Therapist Assistants Experience Gratifying Work

The pay of a Physical Therapist Assistant (PTA) is lucrative at $53,360 per year on average, according to Onet.com, but Surry Community College graduates say the intrinsic rewards are the real value.

“I love my job. It’s so rewarding,” said Tammy Hawks of Mount Airy, a May 2012 PTA graduate of Surry. “Seeing people who are immobilized be able to walk again is amazing.”

Hawks, who works as the rehabilitation director at the Yadkin Nursing Center, shared some examples of patients who had overcome major hurdles. One patient came to the facility as a totally dependent patient, and after a year of physical therapy, she is now able to walk.

One patient was 80 years old and had hip replacement surgery, and after three months of physical therapy was able to return to work as a cashier. Another hip replacement patient was 94 and underwent successful physical therapy. She later returned to the nursing center to bring the staff baked apple pies.

“Just to see her walk in was incredible. It is amazing to see what therapy can do,” Hawks said. “What we do is so rewarding. You get to touch and feel it and see it. It’s just so amazing to be a part of that.”

Hawks did not like the idea of working at a nursing home at first, but now she could never see herself doing anything else. “I love the nursing home setting. We are with the patient up to 75 minutes per day. You get to know them, and you have to deal with the emotional along with the physical,” Hawks said. “Or course, there are hard times too where you see people who don’t recover.”

Giving people back their independence is gratifying. “The things that people take for granted in everyday life, such as going to bathroom by themselves, are tremendous for a patient who has undergone a debilitating experience,” she said. “When you lose your independence, it affects you in so many different ways. We try to give the mobility and independence back to people so they have a better quality of life.”

Hawks had been a textile employee for 19 years before entering the PTA program when she was 39 years old. She was married with two children, who were then 14 and 11. She also has a Medical Office Administration degree from Surry that she obtained at night while she was working full-time in textiles.

“I loved the programs at Surry Community College. I am so happy that I went there,” Hawks said. “It’s not easy to have kids and go to school. My kids and I would do our homework together during family time. They even helped me study with flashcards. You have to be dedicated because it is not easy. I kept a book in my hand for three years. You have to really want it and focus. You can’t be lazy. You have to put 150 percent in your schooling. You have to have good grades to even get in the program.”

Corey Moser knew he wanted to help people through his profession. He is a May 2014 SCC graduate who is currently employed as a PTA at Davie Medical Center in Advance, N.C., nearby his home.

As a high school student, Moser suffered a disabling knee injury when playing basketball at Surry Central High School that resulted in three surgeries. Later in college, he had an accident where his ankle had to be reconstructed due to a mishap on wet grass.

“When going through my own personal injuries, I really needed help with physical therapy because I didn’t know what to do. I needed help being guided through it. I was constantly taking physical therapy and also treating myself as I went along,” Moser said.

This personal experience helped Moser decide to go into the physical therapy field. He had already completed a degree in Exercise Science from Appalachian State University before attending Surry.

Continued on page 7
PTA Program: Exciting Part of the Medical Field

The field of physical therapy is innovative and never boring for graduates who experience a 100-percent employment placement rate.

“It’s an exciting field. It’s ever changing,” said Eileen Coleman, Program Director of the Physical Therapist Assistant (PTA) program at Surry Community College. “New practice areas are always cropping up, and there’s such a variety of different work environments. PTAs are able to obtain specialty certifications to increase their employability.”

Coleman knows first hand what the industry is dictating because she worked in a clinical setting for 29 years and owned her own physical therapy company for two decades employing therapists in the area. This is her third year at SCC.

The Physical Therapist Assistant Degree program is competitive with a 16-seat cap. Admissions is a selective process based on a points ranking worksheet that can be found on www.surry.edu. GPA, test scores and credit for other health-related courses such as massage therapy, exercise physiology are weighted.

Students start the program and stay with their cohort for five semesters before graduating and taking the licensure examination administered by the NC Board of Physical Therapy Examiners. Three varied clinical internships are required, which give students a true picture of a PTA’s work life.

“PTA students need to be empathetic with good oral and written communication skills and have an interest in health sciences,” Coleman said. “Someone who is self-motivated, detail oriented, an efficient time manager and a life-long learner will do well in this field.”

PTA students learn how to measure radial deviation with a goniometer at Surry Community College.

Continued from page 6

“Helping people get back to doing what they loved to do or what they need to do is what I love about my job. It means everything. It’s nice to be a part of it. A lot of their success is due to the work they put in at home, but I get to watch them progress and help them along,” said Moser, who began his career at Northern Hospital of Surry County before being hired at Davie.

“I also like the diversity. I get to see everything in my setting, so I am always fine tuning my skills.”

Moser sees 11 patients a day with various ailments including orthopedic and neuromuscular challenges. He has also helped people recover from strokes, gunshot wounds and motor vehicle accidents.

“The PTA program at Surry was a wonderful experience. It was fantastic. I couldn’t have asked for better instructors. They were always ready to answer questions,” Moser said, who entered the program at 25. “You get out of it what you put into it. It’s not a field that comes easily to anyone. If you have a desire to help people and always want to learn more, then it is absolutely the best field for you. Anyone can learn the anatomy, but you have to want to help people at the core level.”

Lone Weatherman, a resident of Glade Valley, N.C., who is originally from Denmark, graduated from Surry’s PTA program in May 2013, and started working right after graduation at Choice Physical Therapy, Mount Airy.

“It’s a great career. It took me a year to not feel guilty about taking a paycheck. I love it. It’s the best thing that I have ever done. I have never done anything else this rewarding,” Weatherman said.

She has a bachelor’s degree in Socio-Education and had been employed as a childcare center director and worked for social services in Davidson County. She then stayed at home with her three children and started thinking about going back to school. Surry was the obvious choice based on convenience. While going to school, she was busy raising children and working part-time. She was 42 years old at the time.

“It’s rewarding to see patients from the day that they are on intake then progress to discharge when they reach their goals. It’s very gratifying. They have very determined goals with what they want to become functional at. It’s a joint effort. We throw things at them, and they take it and run with it – that’s the beauty of this job.”

Weatherman spoke of a stroke victim whom she worked with for six months, twice a week. His muscles were seizing, which was causing him to be immobilized, but now he can walk and use his arm after undergoing physical therapy.

“We tailor a program with the patient on what they can do at home by themselves and then change it as they master certain things,” she said.

The PTA program was a good challenge for Weatherman. “You have definitely earned your seat. It was a bumpy ride at times. It was challenging and very engaging. It demanded a lot of you as a student. I had excellent instructors in the program and also while working on the prerequisites. I would absolutely recommend the PTA program at Surry Community College.”

Note: Pre-registration and pre-payment required. You may register on-line or use the form in this brochure to mail, walk-in, or fax your registration and payment. Call (336) 386-3229 for more information.

Pet Grooming
Maintain your dog’s health with do-it-yourself grooming. Our hands-on class teaches basic bathing, clipping, and nail trimming techniques. The instructor must approve dogs brought for hands-on classes, and a copy of current vaccinations record must be presented for our files.

Cost: $127
May 19 – July 28, T, 6pm-9pm
Location: SCC, K116

Vet Assisting II (Hybrid)
The Vet II hybrid course is a continuation of the Vet I class and allows students to study when it is convenient for them. Students will have three face-to-face class meetings. In Vet II, students will have a more in-depth study in animal anatomy, physiology and animal diseases. Students will shadow an animal care professional.

Orientation will be Monday, May 18, 6pm, in J116. Pre-requisites for Vet II are Vet I and good computer/Internet skills.

Cost: $127
May 18 - August 14
Location: SCC-J116

Motor Vehicle Dealer – Initial

This two-day, 12-hour course meets the NC DMV pre-licensing course requirement to be a licensed automotive dealer in the state of North Carolina. Course topics include steps to obtaining a Motor Vehicle Dealer License, the fees associated with a Motor Vehicle Dealer License, the requirements to be a motor vehicle dealer, and many other reference materials. Completion of this course allows students to begin the process of becoming an independent automotive dealer in North Carolina.

Cost: $71
May 21 & 22, Th-F, 8:30am-3:30pm
Location: Yadkin Center, 204

August 13 & 14, Th, 8:30am-3:30pm
Location: Yadkin Center, 204

Career Readiness Certification

Please call Susan Ratcliff at (336) 386-3309 for registration information and schedule.

The North Carolina Career Readiness Certificate, signed by North Carolina’s governor, provides a credential for employees confirming their workplace skills in applied mathematics, reading for information, and locating information. These three skills have been identified by employers as vital for success in the vast majority of today’s jobs. WorkKeys is required to earn a NCRC.

Career Readiness Skills (KeyTrain)
Career Ready 101 is our integrated approach to exploring careers and skill requirements, building workplace skills using KeyTrain, and creating life-literacy with such skills as financial awareness and job searching. This program leads users to certification with WorkKeys assessments and the North Carolina Career Readiness Certification. It’s a powerful way to build self-esteem, provide real credentials, and set you up for success. Use our KeyTrain courses to improve your math, reading, and locating information skills. Practice and learn the Career Readiness skills needed to succeed in the jobs and careers. Work toward earning your Career Readiness Certificate. Determine what level of The Career Readiness Certificate you are eligible to earn - Bronze, Silver, Gold or Platinum Certificate in each of the three core areas.

Cost: $180 (tuition may be waived for the unemployed and under-employed)
Open Enrollment, Hours vary by location.

Contact Carmen Eldridge to schedule testing at (336) 386-3683 or eldridgec@surry.edu

Students must be at least 16 years old to enroll in one of our College and Career Readiness programs. If a student is under 18 years old, they must complete a Surry Community College student release form, which is available online at www.surry.edu, from the Corporate and Continuing Education office in Dobson or at the following learning centers:

- Main Campus in Dobson (336) 386-3674
- Elkin Center in Elkin (336) 386-3604
- Jones Family Resource Center in Mount Airy (336) 386-3688
- Pilot Center in Pilot Mountain (336) 386-3618
- Yadkin Center in Yadkinville (336) 679-4600 ext. 3594

Adult Basic Education (ABE)

Adult Basic Education is a program of instruction designed for adults who need to improve their reading, writing, speaking, problem-solving, or computation skills to function more effectively in society, on a job or in the family.

Classes are offered at our learning centers in Dobson, Elkin, Mount Airy, Pilot Mountain and Yadkinville.

Surry Community College also offers ABE classes designed specifically for adults with developmental disabilities and traumatic brain injury. The focus of these classes is to improve the individual's independence by acquiring necessary basic life skills from math and reading skills to job development. Students also gain appropriate communication and socialization skills as well as full access to a computer lab.

Classes are offered at LIFESPAN in Dobson and New Horizons Adult Day Services in Yadkinville. Books, materials and instruction are provided free of charge.

For more information, contact Jennifer Pardue at (336) 386-3674.

High School Equivalency (HSE)

The HSE test is computer based, but paper testing is available as an accommodation. The test has four content areas:

1. Reasoning through Language Arts (150 minutes)
2. Mathematical Reasoning (115 minutes)
3. Science (90 minutes)
4. Social Studies (90 minutes)

The test is offered in English and Spanish and given on the Main Campus in Dobson in the Surry Community College Testing Center located in the Reeves Building (A-Building). Students must apply and pay for testing through www.GED.com. The test requires student knowledge of basic computer skills, which is part of Surry's HSE curriculum. The cost to students is $20 per test for a total of $80 for the entire series. When students pay for one test, they get two retakes at no charge. After the third attempt to pass a test, students must wait 60 days before they can take the test again. Upon attaining minimum standard scores of 150 on each of the four tests and a total of 600, a High School Equivalency diploma is awarded to the student by the State Board of the College Community System.

ABE/HSE Orientation

*New Location*

There is a mandatory one-day, four-hour orientation required for new ABE/HSE students and students returning after six months. The orientation will be held on the Main Campus in Dobson in the Shelton-Badgett Viticulture Enology Building (SBVE). Students must bring picture identification such as a driver's license/permit or government issued photo and a social security card to orientation. Any student age 16 or 17 must present a completed student release form. Contact one of the staff members listed below to register for orientation:

- Jennifer Pardue, HSE Assessment Specialist, (336) 386-3674
- Nichole Shores, Transitions Coach, (336) 386-3441
- Mary White, Program Coordinator, (336) 386-3261

HSE Online
For more information, contact Jennifer Pardue at (336) 386-3674.

This course will help students prepare for the High School Equivalency test in the comfort of their own home or anywhere they have Internet access. Complete HSE orientation with a fifth grade level in Reading (determined by your TABE reading score), and students will be considered a candidate for the HSE Online class.

For more information in regard to any of these College and Career Readiness Programs, contact the following staff members:

- Terri D. Cockerham, Director (336) 386-3244
- Mary W. White, Program Coordinator (336) 386-3261
- Jennifer S. Pardue, HSE Assessment Specialist (336) 386-3674
- Nichole Shores, Transitions Coach (336) 386-3441

Microsoft Windows, MS-Word & MS-Excel
This seven-week course will show the student how to use: MS-Windows, MS-Word, and MS-Excel programs. Students will be introduced to basic computer terms, how to use the Windows controls, file management, word processing and spreadsheets while developing a moderate comfort level of basic computer skills. Students will be shown how to work with files, create new documents, how to save and rename documents, how to work with text to include editing, typing, inserting, highlighting, and deleting text. Students will learn how to write formulas and use built-in functions to have Excel automatically calculate totals, averages, monthly loan payments, and other common business calculations.

Note: This class is offered on demand.

Cost: $127

COMPUTER CLASSES

For more information call, Susan Ratcliff at (336) 386-3309 or ratcliffs@surry.edu.

Corporate and Continuing Education offers computer classes appropriate for the beginning student with minimal skills or students wishes to expand their knowledge.

Learn Graphic Design
both on CAMPUS & ONLINE

Microsoft Excel 2010
Learn the basics of Microsoft’s spreadsheet program. Training includes basic spreadsheet building. The class will focus on everything from formatting and writing simple formulas to writing more complex formulas and functions. This class offers the skills that employers desire for the workplace as well as skills beneficial to the home user.

Cost: $71
Note: This class is offered on demand.

iPhone/iPad Fundamentals
This course provides users of Apple’s iPhone and iPad basic knowledge of both devices. Students will not only learn the basics such as setting up email accounts, messaging, navigation and using controls, but will also be introduced to the newest iOS operating system and learn the basics of working with iCloud. Security, iTunes, popular apps from the Apple App store and photos will be emphasized during this course. The class is appropriate for users of the iPhone or iPad. Make the most of your iPhone and/or iPad by learning unique tips and tricks. iPads and/or iPhones must be provided by the student.

Cost: $71
Note: This class is offered on demand.

Troubleshooting Basics
This mini-course is designed to teach introductory techniques for troubleshooting and problem solving for your home computer as well as preventative maintenance tips. Topics include: computer components, slow computers, software troubleshooting, protecting against virus and more.

Cost: $71

Note: This class is offered on demand.
Smartphones for the Android User: 
Coming soon.

Cost $71

Making the Most of Digital Photographs
Come discover how you can use your digital photos to create an impressive photo project. Students will learn how to work with digital photo files, including transferring from the camera, backing up photo files, inserting files into documents and uploading to a website for printing. Some basic photo editing will be addressed, including corrections and enhancements. Students may choose to make a photo book or a movie from their digital photographs. Students will need to provide their own digital photographs.

Cost: $71

Note: This class is offered on demand.

**Emergency Medical Technician - Basic (EMT-B)**
The Emergency Medical Technician-Basic course establishes the basic knowledge needed to provide, under medical authority, pre-hospital emergency care and to pass the NC State and/or National Registry certification exam. Students will acquire basic life support knowledge through a combination of classroom instruction, practical laboratory exercises and clinical experience in hospitals. Students will acquire a thorough understanding of criminal, civil and vehicle laws pertaining to the EMT’s services; develop understanding and knowledge of human anatomy and physiology; deal calmly and efficiently with childbirth, injuries, poisonings and other medical emergencies such as heart disorders, strokes and diabetes; and in general be able to provide basic life support for seriously critically ill patients.

This course follows the guidelines established by the NC Office of EMS. The curriculum for the EMT-B educational program shall be the National EMS Education Standards including the 1994 United States Department of Transportation (US DOT) National Highway Traffic Safety Administration (NHTSA) EMT-Basic Course: National Standard Curriculum along with the Supplemental Airway Modules for EMT-Basic: NSC.

Basic Law Enforcement Training (BLET)
This course is accredited by the NC Criminal Justice Training and Standards Commission. Persons desiring to become a sworn law enforcement officer in North Carolina must successfully complete this course in its entirety and pass a state exam. This course consists of 678 hours of training including classroom and practical skills. To qualify for admission, an individual must meet the same requirements as those mandated by the NC Criminal Justice Standards/NC Sheriffs’ Standards Commission for a sworn law enforcement officer.

Student prerequisites:
- High school diploma or High School Equivalency diploma
- Successful completion of the T Abe assessment exam for basic reading comprehension skills. This testing will be assessed during the orientation period of the first class meeting.

Total hours: 190 - 208
Cost: $180 (Tuition waived for members of approved NC Lifesaving Organizations.)

Anatomy and Physiology for the EMS Provider – EMS 3000
This course is designed specifically for the EMS provider and fulfills the anatomy and physiology pre-requisite for acceptance into the certificate paramedic program. The course provides a basic study of the structure and function of the human body. Topics include a study of body systems, as well as an introduction to homeostasis, cells, tissues, nutrition, acid-base balance, and electrolytes. Upon completion, students should be able to demonstrate a basic understanding of the fundamental principles of anatomy and physiology.

Cost: $180 (Tuition waived for members of approved NC Lifesaving Organizations.)

Networking Your Way to Success, Dress For Success With Career Gear
Learn important ways of networking with friends, relatives, acquaintances, direct employer contact, Internet, and job information web sites to tap into the hidden job market. Master the skill of dressing for success and improving your total image.

Location: SCC-J103
MEDICAL & NURSING

Pre-registration and pre-payment required. Please call Margie Collins (336) 386-3423 for more information.

Certified Nursing Assistant (CNA): Nurse Aide Level I

This course prepares the student to provide personal care and perform basic nursing skills for the elderly and other adults. Students may seek employment in a variety of healthcare settings. Upon successful completion of the CNA I course and the certification exam, the student will be listed on the North Carolina Division of Health Service Regulation Nurse Aide I Registry. Current cost for the certification exam is $101. This is a 188-hour course.

Cost: $183 plus $53* for urine drug screening and criminal background check and $16* for malpractice insurance. Virginia students will have an additional $10 fee for this service. Total $252.*

*Fees are subject to change.

Note: Registration is currently open for all students. New students must register in person by coming to J-120 (Corporate and Continuing Education Office on SCC Dobson campus). Current or returning students may register online by going to www.surry.edu. Call (336) 386-3423 for more information.

New!!! Nurse Aide I Summer Accelerated Class.

Become a Nurse Aide I in 8 weeks.

Registration is open NOW. Students registered on a first come, first served basis. Only 20 seats available.

May 11 – July 2, MTWTh, 8am-3pm
*Clinical hours 8am-5pm*
Location: SCC, J 211

Certified Nursing Assistant II (CNA II): Nurse Aide II

This course prepares the student to perform more complex skills for patients or residents. The North Carolina Board of Nursing approves those skills. Upon satisfactory completion of the CNA II course, the student will be listed with the North Carolina Board of Nursing. Current cost of the Nurse Aide II listing is $24. This course is a 192-hour course.

Prerequisites: High school diploma or High School Equivalency diploma, current American Heart Association Healthcare Provider CPR, and a current North Carolina Nurse Aide I.

Cost: $183 plus $53* for urine drug screening and criminal background check and $16* for malpractice insurance. Virginia students will have an additional $10 fee. Total $252.*

*Fees are subject to change.

Phlebotomy I (Hybrid)

This course prepares the student to work in hospitals, physician offices, as well as privately owned laboratories. The course is in two parts. The first part is 96 hours of classroom and lab. The second part (Phlebotomy II) is 100 hours of clinical. The student will be given a designated clinical site and will perform learned skills while under the supervision of a preceptor.

Pre-requisites: High school diploma or High School Equivalency, CNA I and II, or proof of one of the following: comparable credentials such as CMA, EMT-I, RN, or LPN, or documented previous experience working as a phlebotomist or experience performing venipunctures. Please bring proof of pre-requisites to registration.

Cost: $183 plus $69* for urine drug screening and criminal background check and $16* for malpractice insurance. Virginia students will have an additional $10 fee. Total $268.*

Note: Upon successful completion of both parts, the student will be prepared to sit for their national certification exam. The current cost of this exam is $135.

Phlebotomy Registration will be held on Friday, July 17 at 9:00am in the lobby of the Corporate and Continuing Education Office (J-Building). There are a limited number of seats available for this class.

Cost: $183

August 4 – October 27, TTh 6pm-10pm
Location: SCC, J211

Pharmacy Technician

This course prepares students to work under the supervision of a pharmacist in a hospital or retail pharmacy. Topics covered include drug classification, drug distribution, anatomy and physiology in relationship to disease with an emphasis on drug therapy, and laws and regulations basic to pharmacy practice.

Note: Students who complete this course successfully may sit for a national certification exam through Pharmacy Technician Certification Board (PTCB). This is a 96-hour course. Pre-registration and pre-payment required.

Cost: $183

Medical Coding and Billing (Hybrid)

This course prepares an individual for entry-level healthcare billing and coding positions. Course topics can include but are not limited to the roles and responsibilities of this position, managed health care, life cycle of an insurance claim, legal and regulatory considerations, coding regulations, reimbursement issues, claims instructions, medical terminology, filing commercial claims, insurance plans, Medicare, Medicaid, Tricare, and Workers’ Compensation. New ICD 10 coding will be included in this course. Upon completion, students should also be able to utilize MS Windows and the Internet to effectively retrieve billing-related information and updates. This is a 156-hour course. Students may seek certification in coding after taking this course.

Note: Medical Terminology is strongly recommended for this course. Good computer skills are a MUST.

Cost: $183

August 17 – November 9, MW, 5:30pm-9:30pm
Location: SCC, J201

A limited number of seats are available for this class.
NEW!!!

Sports Medicine Technology I

This course is designed for students who are looking to work in the field of Sports Medicine such as athletic training, personal training, physical therapy, performance enhancement, occupational therapy, and orthopedics just to name a few. Students will gain necessary skills and knowledge in the basic fundamentals and concepts in health science, medical terminology, emergency preparedness, anatomy and biomechanics, kinesiology and injury, therapeutic modalities and rehabilitation, and fitness programing and design.

This program places an emphasis on the learning objectives of the National Academy of Sports Medicine, the American Council on Exercise, and the professional domains of competency set by the board of certification for the athletic trainer. Upon completion of this course, the student will be eligible to sit for a national certification with a number of different nationally accredited organizations such as the NASM, ACE, ACSM, and NETA. In addition to acquiring the skills needed to obtain a national certification, the student will also be positioned to transition into other advanced level programs and degrees in the sports medicine field.

The course is divided into two parts Sports Medicine Technology I and II. Students will be eligible to sit for certification(s) at the end of each part. There are a limited number of seats available so please register soon!

Cost: $186
August 11 – December 8, TTh, 9am-2:30pm
Location: SCC, J 201

MOTORCYCLE SAFETY

Pre-registration and pre-payment required. Please call (336) 386-3473 or (336) 386-3681 for schedule and registration information.

NC Motorcycle Safety Program’s Basic Rider Course

The basic course teaches the skills necessary to operate a motorcycle in traffic. This course consists of both classroom and driving range activities. Motorcycles are provided for the BRC course. Each site has a limited supply of helmets in various sizes. If possible, bring your own helmet to the riding portion of the course. The course consists of 22 hours of training.

NOTE: The Friday evening classroom session is conducted in J-114. The remainder of the course is conducted at the Emergency Services Training Center behind the baseball field off Comer Blvd. in Dobson, N.C.

Cost: $167 (price subject to change)

Fish, Reptiles, Small Game and Life-size

The Summer/Fall taxidermy class covers both fish/reptiles and small game/life-size mounts. Topics include skinning, fleshing, tanning and drying of skins of fish and small to large mammals. The correct use, alteration and rebuilding of purchased manikins and other parts will also be covered.

Cost: $183

NOTARY PUBLIC

Call (336) 386-3580 or (336) 679-4600 to pre-register or for more information.

TAXIDERMY

Pre-registration and pre-payment required. You may register online or use the form in this brochure to mail, walk-in, or fax your registration and payment. Call (336) 386-3618 for more information.

Fish, Reptiles, Small Game and Life-size

The Summer/Fall taxidermy class covers both fish/reptiles and small game/life-size mounts. Topics include skinning, fleshing, tanning and drying of skins of fish and small to large mammals. The correct use, alteration and rebuilding of purchased manikins and other parts will also be covered.

Cost: $183

Taxidermy Advanced Techniques and Special Topics

The advanced taxidermy class is open to advanced taxidermists, past students, or those currently enrolled in one of our other taxidermy courses. Topics can include: form alterations and form building, casting, molding, advanced painting and finishing methods, and artificial habitat molding. Advantages of the class include the use of shop equipment you may not have and networking with other taxidermists in a hands-on classroom environment. Participants may work on deer, fish, birds, or life-size projects of their choice and receive individualized instruction as needed.

Cost: $127

Classes held in Dobson and Elkin are co-sponsored by the Yadkin Valley Chamber of Commerce.

Classes held in Mount Airy and Pilot Mountain are co-sponsored by the Yadkin Valley Chamber of Commerce.

Classes held in Yadkinville are co-sponsored by the Yadkin Valley Chamber of Commerce.
**Summer Shorts**

**Beginner Fiddle**
In this class you will learn to play a selection of traditional tunes on the fiddle. Students will learn using tablature and recordings of these tunes, and you will be given instruction both as a group and individually. Hopefully, what you take home from this class will allow you to get into jams with other musicians in the future. No playing experience is necessary, but students must provide the following: a fiddle and bow in working condition and a tuner.

**Cost**: $79  
**June 2 – July 28, T, 6pm-8pm**  
**Location**: SCC, J103

**Beginner Mandolin**
Learn how to play the mandolin in this new class. Students will learn the basic mandolin chords and strumming patterns as well as learn how to play lead melodies by ear. By the end of the course, each student should have the skills to play basic Old Time, Celtic, and Bluegrass tunes and continue playing on their own with others in a jam setting. Students will need their own working mandolins, picks and tuners.

**Cost**: $79  
**June 2 – July 28, T, 6pm-8pm**  
**Location**: SCC, J114

**Yoga**
Tired muscles? Low energy? Yoga is a way to relax, stretch, and rejuvenate! Bring your yoga mat and spend an hour on yourself!

**Cost**: $35  
**June 1 – August 10, M, 5:30pm-6:30pm**  
**June 1 – August 10, M, 6:40pm-7:40pm**  
**Location**: SCC Dobson, J115

**Beginner Sewing**
Have you ever wanted to learn to sew but thought it was too daunting a task to take on? Are you looking for a quick, fun project that will teach you the basics of sewing in a relaxing and stress-free environment? For a beginner, nothing is better to start with than a craft or home décor project. This class will guide you through the process of creating a handy, attractive, professionally constructed item for yourself or to give as a special gift. Whether you are a newbie just learning how to sew or a beginner looking to sharpen your sewing skills, you will develop a skill that will stay with you for the rest of your life and can become a gratifying hobby. You will learn how to read and use a pattern, properly cut and mark fabric. Students will discuss straight and cross grains in fabric, and the importance of proper pressing.

**Cost**: $49 includes all supplies.

**Beginner Sewing Project**:  
**Trendy Tote Bag**  
**May 19 – May 21, TTh, 6pm-9pm**  
**Registration Deadline**: May 15th  
**Location**: Pilot Center, 134

**Beginner Sewing Project**:  
**Easy Apron**  
**July 14 – July 16, TTh, 6pm-9pm**  
**Registration Deadline**: July 10th  
**Location**: Pilot Center, 134

**Beginner Shag**
The quintessential summer dance is back on our schedule. With several venues in our area for outdoor concerts and shagging, you’ll be able to join the fun once you’ve learned the summer dance that began in the Carolinas. Partners are encouraged but not necessary. Instructor: Bruce Leonard

**Cost**: $45  
**June 2 – June 30, T, 6:30pm - 7:30pm**  
**Location**: Pilot Center

**Intermediate Shag**
Further your skills learned in the Beginner class with Intermediate Shag.

**Cost**: $45  
**July 14 – August 11, T, 6:30pm – 7:30pm**  
**Location**: Pilot Center

**Calling All Chocolate Lovers**
Love chocolate? This is the class for you. Learn where chocolate comes from, how it is made, sample different types of chocolate and discover the health benefits. Participants will make and take home edible chocolate roses.

**Cost**: $25 (includes all supplies)  
**June 23, T, 6pm-8pm**  
**Location**: NC Cooperative Extension, Surry Center – 210 N. Main St, Dobson

**Garden Bird Bath: Sand-Cast Concrete**
Create an original piece of yard-art for your feathered friends to enjoy in this hands-on workshop. You will make your own form for the bowl of the bird bath using a large leaf. The concrete will turn the design into a permanent outdoor decoration. This class will be held on two nights to allow the concrete to set, apply color and seal. Proper pressing is crucial. Quilts, always a beloved symbol of comfort, family, heritage and community, have taken a new twist. A barn quilt will provide wonderful visual art for your barn or building. Traditional quilt patterns will be painted on pre-built wooden squares. All materials will be supplied for this class. Class size limited to six students.

**Cost**: 2x2 - $125, 3x3 - $200, 4x4 - $225  
**May 16, Sat, 9am-4pm**  
**Registration Deadline**: May 1st.  
**Location**: Yadkin Center

**Location**: NC Cooperative Extension, Surry Center – 210 N. Main Street, Dobson

**Joyful Journal**
Just in time for back-to-school or to get an early start on presents for those special people on your Christmas list. Participants in this hands-on workshop will create two sizes of unique journals, one small enough to fit in your pocket or purse. Use them to jot down notes, lists or special thoughts of joy. The larger journal will be 9.75 x 7.5 inches, and the smaller will be 4x3 inches.

**Cost**: $15 (includes all supplies)  
**August 4, T, 6pm-8pm**  
**Location**: NC Cooperative Extension, Surry Center – 210 N. Main Street, Dobson

**T-Shirt Quilt**
Create a memory quilt with your favorite T-shirts. You will complete four shirts in class, but you can add more T-shirts after class to make your quilt larger. You will learn to stabilize the T-shirt material, add sashing, and add batting and backing. You will also learn how to bind to finish the edges of your quilt.

**Cost**: $45 / Price includes stabilizer material for four shirts. Other supplies are an additional cost to the student. Please ask for a supply list.

**Jelly Roll Race / Lap Quilt**
This quilt is so fun to make! You begin making this quilt by buying a jellyroll. This is 40 or 42 strips of fabric that are 2.5 inches wide and about 44 inches long. The fabric in each jellyroll typically comes from one line of fabric. This is a huge plus because it means that all the colors in the quilt will coordinate, but you can size up your T-shirts after class to make your quilt larger. You will learn to stabilize the T-shirt material, add sashing, and add batting and backing. You will also learn how to bind to finish the edges of your quilt.

**Cost**: $45 / Price includes stabilizer material for four shirts. Other supplies are an additional cost to the student. Please ask for a supply list.

**Hand Quilting Workshop**
Quilting has been done for many years and is well known all over the world. It has changed over time, as it began to fill a basic need for warmth, but is now an art form. Today, the art of quilting has become quite popular as there are many more women and men who take up quilting and enjoy the craft. You are only limited by your imagination. Quilting is a hobby that allows you to add a personal touch in making your next quilt your unique creation. In this class you will learn to layer your fabrics, properly hoop your piece, and make small even stitches in a variety of patterns and designs. Supplies are an additional cost to the student. Please ask for a supply list.

**Cost**: $40  
**August 8, Sat, 9am-4pm**  
**Location**: Elkin Center, 105

**Barn Quilts**
Quilts, always a beloved symbol of comfort, family, heritage and community, have taken a new twist. A barn quilt will provide wonderful visual art for your barn or building. Traditional quilt patterns will be painted on pre-built wooden squares. All materials will be supplied for this class. Class size limited to six students.

**Cost**: 2x2 - $125, 3x3 - $200, 4x4 - $225

**Registration Deadline**: May 1st.  
**Location**: Yadkin Center

**Registration Deadline**: July 18, Sat, 9am-4pm  
**Registration Deadline**: July 3rd  
**Location**: Pilot Center

**Classes offered in partnership with Surry County Extension and Community Association.**
Digital Photography: DSLR / Mastering the Manual
This eight-hour, four-week mini course will help you improve on your skills and become more proficient with your DSLR (Digital Single-Lens Reflex) camera. From choosing the right equipment to understanding what it takes in getting the right shot, we will help increase your passion and proficiency in these two areas of capturing images. Please be aware this class is taught more from a DSLR camera perspective. We ask that you be familiar with your camera and that you bring your camera’s operation manual to class. This is the first class in a series taught by Boyce Shore, Master of Photography.

Cost: $49
June 1 – June 22, M, 6pm-8pm
Location: Pilot Center

Beer Brewing at Home
Beer is an internationally renowned beverage and brewing is a traditional, yet highly controlled, innovative industrial process. This course will introduce the study and art of brewing in a responsible manner. You will learn about the different beer styles and types, raw materials used for brewing, how to produce beer, and the role of quality in the brewing industry. At the end of the class, you will go home with your handmade brews and the knowledge to do it again! Students must be 21 years old or older.

Cost: $199
June 1 – June 22, M, 6pm-8pm
Registration Deadline: May 15th
Location: SCC – SBVE

Intermediate Winemaking at Home
This class will provide the home winemaker with the much needed, hands-on experience and know how needed to produce wine at home. We will produce five gallons of wine in this class, bottle that wine and at the end you will be able to take those bottles home with you! Topics covered: sanitation, pre-harvest, fermentation, clarification, filtering/fining, bottling, and aging.

Cost: $199
July 13 – August 3, M, 6pm-8pm
Registration Deadline: June 26th
Location: SCC – SBVE

Farm to Table Training Series
Pre-registration is required. Please call (336) 386-3618 for more information.
Join us for a series of courses to prepare you for farming for profit. Each of the sessions will meet in Surry County. Some will be held at Surry Community College’s Main Campus in Dobson or The Pilot Center in Pilot Mountain. Others may be on-site at farms. Participants may take any or all of the following courses:

Cost: The tuition for this training is free thanks to a grant provided through the Project Skill-UP program and made possible by the NC Tobacco Trust Fund Commission. Training is provided through a partnership with the NC Cooperative Extension.

- Crop Methods for Produce Growers
  April 9, Th, 6pm-9pm

- Introduction to Beekeeping
  May 14, Th, 6pm-9pm

  November 14, Th, 6pm-9pm

Vineyard Establishment and Planting
Learn how to successfully plant and care for young grape vines in Surry Community College’s 2 acre vineyard establishment project. COST: Free

April 18, Sat., noon-4pm
Location: SCC, SBVE

Canopy Management Series (2 parts)
Proper canopy management results in reduced pest and disease pressure, enhanced bud fruitfulness, and improved quality characteristics. COST: Free

- Grapevine Shoot Thinning
  May 8th, F, 12:30pm-3:30pm

- Grapevine Leaf Removal
  June 5th, T, 12:30pm-3:30pm

Sparkling Wine Workshop
Are you thinking about taking your winery operations to the next level? Do you just have an interest in how sparkling wine is made and consumed throughout the world? Join us for a comprehensive workshop on producing sparkling wine. You will taste sparkling wines from around the world, discuss stylistic attributes of different sparkling wines, learn the process of producing sparkling wine, experience cuvee blending, and riddle sparkling wines on Surry’s campus. Students will also discuss the potential for Sparkling Wine production in North Carolina. This workshop is a 100 percent comprehensive overview of the sparkling wine process and its stylistic attributes. Take this workshop if you are a current winery owner looking to expand into new projects or an intermediate enthusiast ready to experiment at home.

Cost: Free / Paid for by Project Skill Up
June 10 – June 17, Wed, 6pm-8pm
Location: SCC – SBVE

Wine Quality / Wine Analysis Workshop
What separates your wine from other wines in an oversaturated market? A consistent and quality-made product. This workshop will cover concepts like style, maturity state, sanitation, reductive winemaking, proper fermentation management, wine balance, and the evaluation of fermenting and finished wines.

We will also discuss the technical skill and the chemical background to each winemaking test performed during and after the harvest. We will work with the following tests: pH, Brix, TA, Free SO2, Bound SO2, Volatile Acidity, Residual Sugar and Ethanol determination.

Cost: Free / paid for by Project Skill Up
June 24 – July 1, Wed, 5:30pm – 8:30pm
Location: SCC, SBVE
HOW TO APPLY

1. Go to surry.edu to complete the admissions application.
2. Submit Official Transcripts.

Priority Dates:
Fall Semester: June 1
Spring Semester: October 1
Summer Semester: March 1

5. Check your SCC accounts on My Knight Life and the SCC Student Email.

Admissions Representatives:
If your last name begins with A – M:
Jennifer Creasey  (336) 386-3218

If your last name begins with N – Z:
Kevin Edwards  (336) 386-3430

For admissions with Health Science Programs & Career and College Promise (CCP): Leona Childress  (336) 386-3358

Financial Aid Representatives:
If your last name begins with A – I:
Ashley Tomlin  (336) 386-3430

If your last name begins with J – Z:
Kendra Simmons  (336) 386-3465

For more detailed application instructions, go to www.surry.edu or call (336) 386-3264.

Key for Credentials Offered in A-Z Table

AA = Associate in Arts
AFA = Associate in Fine Arts
AGE = Associate in General Education
AS = Associate in Science
AAS = Associate in Applied Science
D = Diploma
C = Certificate

ADVANCED MANUFACTURING
Computer-Integrated Machining
Credentials Offered: AAS, D, C
Employment as machining technicians in high-tech manufacturing industries, specialty machine shops, fabrication industries, and high-tech or emerging industries such as aerospace, aviation, medical, and renewable energy.
Salary: $39,570

Electronics Engineering Technology
Credentials Offered: AAS, C
Employment as an electronics engineering technician, field service technician, maintenance technician, electronic tester, or production control technician to design, build, install, test, troubleshoot, repair, or modify electronic components and systems.
Salary: $58,540

Engineering Design Technology
Credentials Offered: C
Produce drawings of mechanical parts, components of mechanical systems, and mechanisms. Employment in mechanical areas such as manufacturing, fabrication, research and development, and service industries.
Salary: not available

Mechatronics Engineering Technology
Credentials Offered: AAS, D, C
Prepares the students to use basic engineering principles and technical skills in developing and testing automated, servomechanical, robotic, and other electromechanical systems used in advanced manufacturing. Graduates should be qualified for employment in industrial maintenance and manufacturing including assembly, testing, startup, troubleshooting, repair, process improvement, and control systems, and should qualify to sit for Packaging Machinery Manufacturers Institute (PMMI) mechatronics or similar industry examinations.
Salary: $47,910
