

# Acquired Structural Burns

It is Surry Community College's policy to arrange and coordinate the testing of structures donated to fire departments in our delivery area for asbestos as required by law. This will only be done after a Property Release and Asbestos Testing Agreement (provided on the following pages) have been signed, notarized and returned to the Fire and Rescue Division Office. Once these documents have been received by Surry Community College, it generally takes 30 to 45 days to perform the testing and complete all associated paperwork before the structure can be used for training. Junior/Cadet members are NOT allowed to make interior fire attacks or conduct vertical ventilation activities on acquired structures.

*The removal of any materials containing asbestos is the responsibility of the property owner. Surry Community College in no way agrees to perform abatement of asbestos containing materials.*

## Property Release Form For Live Burn Training

Owner: \_\_\_\_\_

Mailing Address: \_\_\_\_\_

Address of Property: \_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

Date: \_\_\_\_\_

Phone #: \_\_\_\_\_

I certify that I am the owner of the property and that there is no insurance on this property that is being burned. I further certify that the title for the property is clear of all liens. I also have given permission to Surry Community College to use and burn this structure for training purposes.

Upon having the property returned to you, you will be responsible for what debris is left. There will be a pile of debris, burnt grass around the area. Any trees or bushes that were close to the structure may be burnt and might die. The ground around where the structure was and the driveway may be saturated with water.

Depending on weather conditions fire might extend to nearby fields and/or woods. The Fire Department will extinguish these fires.

If weather conditions deteriorate to the extent that we stop burning, the fire department will extinguish the fire in the structure.

Please keep any unauthorized persons away from the burn structure. If you have any questions or the debris pile starts burning please call 911

## Asbestos Inspection Agreement Form

I certify that I am the owner of this property and have given permission to Surry Community College to have this structure inspected for asbestos.

Surry Community College will pay for the cost of the asbestos inspection as long as we are able to use the structure for training.

During the asbestos testing procedure, the structure may receive some damage such as but not limited to:

- Samples being removed from floor covering and siding,
- Samples being removed from wall coverings,
- Samples being removed from roofing materials,
- Siding and flooring being removed to allow samples to be taken from underlying layers.

Surry Community College will not repair or pay for the repair of damage resulting from sample collection should the owner choose option 2 below.

If the structure inspection report shows the presents of asbestos the owner of the structure will have two choices.

1. The owner will have the asbestos removed so that Surry Community College can use the structure for training.
2. The owner of the structure will reimburse Surry Community College for the cost of the asbestos inspection.
